CIRCULAR

Sub: Skill Training for School dropouts.

Under RTE Act 2009, all the students at elementary level are promoted till Class VIII due to "No Detention Policy" and transit to the Secondary level. But the issue of dropout children has raised some major concerns at the Secondary as well as Senior Secondary level of School Education.

2. The school community as a whole offers a safe haven to the children with teachers to counsel and guide, with classmates and peers to handhold, with HoS acting as a protective figure in the lives of these children. The children who left studies midway after class IX and XI for whatever reasons are already bereft of the support of school community and the lockdown due to the pandemic has further aggravated their sense of isolation and the feeling of being left alone and left behind.
3. It is time to reach out to them in these trying times and guide them to make a fresh start in life. Therefore, as educationists, our prime focus is to take each child along and an urgent need is felt to equip these children with skills to eke out a living as an adult in life later on.
4. Vocational Training, in a field of their choice will provide these children with a respectable way to catch up on lost education, equip them with necessary skills and increase their employability for improved livelihoods.
5. In an attempt to reach out to these children, Samagra Shiksha, Delhi has initiated a project Skill Training for School Dropouts (STSD) in collaboration with

National Urban Livelihoods Mission (NULM) and Department of Training and Technical Education (DTTE) to enable the children to take up skill training that will help them in securing a better livelihood. **No fees will be charged from the children.** After successful completion of the training, certificates will be provided to them and also opportunities for placement.

6. DDE(Vocational) will be the Nodal Officer for this initiative.
7. A district-wise list of children of classes IX & XI who have dropped out in the session 2018-19 is placed below.
