August 7, 2019

Dear Madam/Sir,

I am writing to you regarding the Science and Astronomy Olympiad programmes in India. Please find enclosed 5 copies of the brochure which describes the Olympiad programme in Astronomy, Biology, Chemistry, Junior Science and Physics for the year 2019 - 2020 including eligibility criteria and enrolment procedure. The national Olympiad programme, conducted by the Homi Bhabha Centre for Science Education (TIFR) in collaboration with the teacher associations in Physics (IAPT), Chemistry (ACT) and Biology (ATBS) is the highest level test of excellence among secondary and higher secondary students. This programme is the **only channel for participation in the International Olympiads of the respective subjects**. This programme is recognised and fully funded by the Government of India through the Department of Atomic Energy (DAE), Department of Science and Technology (DST), Department of Space (DoS) and the Ministry of Human Resource Development (MHRD). Over the last two decades, almost every Indian student who has qualified through the national programme has brought glory to the nation by winning a medal at the international olympiad.

Let me take this opportunity to bring to your notice the excellent performance of the Indian students in this year's international olympiads. The Indian teams to the Biology, Chemistry and Physics have recently returned from this year's international events held in July 2019. As always, every student from India has won a medal in each of the Olympiads. The details of their performance are enclosed herewith.

Results of IOAA and IJSO 2019 will be sent later. They are scheduled in August and December this year. Kindly find enclosed a summary of the above results.

I request you to kindly popularise the Olympiad programme in your state by providing publicity to it through the resources at your disposal. The school/college system is the most vital instrument in locating talented students who have the potential to excel at the highest level and can build the future of India. I seek your support and help in this national endeavour.

All information regarding the olympiad programme may be found on our website: olympiads.hbse.tifr.res.in. Please do not hesitate to contact us for any clarifications.

With best regards,

(Anwesh Mazumdar)
